WEIDER MODULO DOME RACING

TEAM DRIVER ALTERATION

WEIDER MODULO DOME RACING announces that Frederic Makowiecki substitutes Jean-Karl Vernay as a driver of Weider Modulo DOME Racing. Frederic Makowiecki will drive Weider Modulo NSX CONCEPT-GT as a partner of Naoki Yamamoto as from Sugo Rd. 4 of 2014 Super GT Series.

To raise the total performance of the team toward latter half of the season, DOME Racing decided to take a driver with extensive experience to advance as quickly as possible the evolution and performance of the car. This is why some races and practices of the Championship will be done by Frederic Makowiecki. However Jean-Karl Vernay will always remain as official driver at DOME Racing and works closely with these two teammates to reach the target of the team.

Frederic Makowiecki will be participating in 2014 Super GT Series from Rd.4 to Rd.7. The driver for Rd.8 will be announced after the team has finalized the negotiation.

We wish you'll keep cheering for Weider Modulo DOME Racing.
